**Personal protective equipment**

- Respiratory protection : No personal respiratory protective equipment normally required.  
General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.
- Hand protection  
Material : Nitrile rubber
- Remarks : The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case.
- Eye protection : Safety glasses with side-shields  
(Not necessary when using full face mask)
- Skin and body protection : Laboratory: laboratory coat; Factory: disposable Overall.
- Protective measures : Handle in accordance with good industrial hygiene and safety practice.
